Through the art of comedy and fun of improv, participants will learn how to step outside their comfort zone and explore their imagination. Heavy emphasis will be placed on valuable skills such as listening, public speaking, problem solving, and teamwork.

This program is offered free of charge to residents of Maine Township or children attending a Maine Township school. This program is intended to be introductory and there is no prior experience needed with theatre, improv, or comedy to apply.

Depending on the comfort level of the class, there may be a final performance on December 1 for friends and families of participants.
